SUBSCRIPTION \$2.00 PER YEAR

Service Stations Will Operate On a Schedule

At a meeting of the Gleichen Association of Garage, Service Stations and Machine Shops, held in the town office last week, at which P. Deshayes, J. O. Rogette, W. M. Pettit, R. K. Hunter and D. D. Hall were present.

The matter of closing on Sundays, civic half day holidays, was thoroughly threshed out. It was decided and agreed by all present at the meeting that one service station only stay open on these days. Starting Sunday, June 1st and right through the week until the following Saturday night the following stations will take turns:

Sunday June 1st, Gleichen Motors, Sunday June 8th, Hwyway Auto Service.

Sunday, June 15th, Fiddler & Buhr, Sunday, June 22nd, Central Motors, Sunday, June 29th, Purdy 90.

This schedule will continue indefinitely.

Advantage Taken Of The Farm Improvement Loans

During 1946, 12,000 farmers obtained loans totalling nearly \$10,000,000 under the Farm Improvement Loans Act. A report covering the first full year's operation of this Act, was tabled in Parliament last week by the Minister of Finance, Honorable Douglas Abbott.

Loans were made through 3,100 branches of the chartered banks for the improvement and development of farms and for the improvement of living conditions on farms. The interest rate is five percent simple interest per annum, and loans may be for periods up to ten years. The legislation aimed at assisting particularly the average farmer who in the past has not always been able to obtain bank credit for farm improvement purposes.

Farm implements and farm trucks account for \$7,489,847 of loans made during 1946. These loans represent an actual sales volume of approximately \$12,500,000. The wide availability is reasonable to assume that practically all farm implements and sales in Canada requiring financing are now being financed either through loans obtainable under the Farm Improvement Loans Act or through regular bank loans. The result should be a substantial saving to the farmer not only in the purchase price of his farm implements but also in finance charges and interest rates previously prevailing for this type of financing.

Included in the total are loans to 12,008 farmers to clear and break an estimated 50,000 acres of new land, mostly in the pioneer sections of western Canada. Loans for foundation and breeding stock accounted for 303 loans totalling \$190,987.

One of the most important classes of loans is that for the construction, alteration and repair of farm buildings including farm dwellings and elaborate houses for farm help. The supply of material and labor becomes more adequate, it is expected that loans for these purposes will be greatly expanded.

As shown in the following table, the act has been particularly successful in the three Prairie provinces, Manitoba, Saskatchewan and Alberta:

Manitoba	4,708	\$3,388,115
Saskatchewan	4,075	\$3,140,157
Manitoba	1,928	1,897,253
Ontario	1,415	1,269,271
British Columbia	467	243,700
Quebec	193	146,631
Nova Scotia	76	55,851
New Brunswick	34	24,411
Prince Edward Island	8	4,280
Total	13,000	\$9,880,668

THE TASTE OF MEAT

About this time of year, appetites begin to lag. Growing children often take a "peaked look", mother does not feel quite up to the mark. And grown-ups about the roast, which is a sure sign that dad is sort of fed up on heavy meats.

You begin to crave for greens leaf lettuce, new radishes, young onions. The health giving qualities of horseradish appeals to your latent appetite.

perhaps that have been in the ground all winter are dug crisp and sweet and now you are eating fresh rhubarb pie.

In Canada we are perhaps the most fortunate country in the world as far as geography goes. We have a great fruit and vegetable producing country to the south whose borders lie within the warm waters of the Gulf of Mexico, where tropical fruits grow in rich abundance, whose prices delivered to your store are within the reach of the thinnest purse. Fat juicy grapefruit, oranges, lemons, pineapple and bananas at surprisingly low levels. Your round fruits and vegetables take up as healthy and happy.

Never was the need more urgent than at the present time that Canada keep most supplies going overseas. England's factories are working overtime to build up their export trade that was sacrificed during the war; they only get the need good food given them energy for this type of speeded up work.

For in Britain the picture is still black. The coldest winter within memory, the worst floods ever experienced, farm lands under water, fields of fall wheat and barley completely destroyed, they lost over two million sheep alone, which is a catastrophe in a country that depends so much on its sheep and mutton for human food. We must not let our commitments to Britain down. Even now they only get the worth of most a week per person which works out to a few pennies, they have no substitute like we have. A couple of weeks a month a few potatoes a few, vegetables high priced and scarce, low priced of butter and fat, rationed milk, rationed food allowances that the average Canadian would starve on. We have such a lot of good substitutes that it is no hardship to have a meatless day a week or even two. We have an abundance of fresh eggs, a wide variety of fish, chicken and other food at reasonable prices, choices of every description, fresh and stored vegetables, rich dairy products, baked beans, fried or creamed mushrooms, macaroni, creamed fish, cheap and abundant canned goods, sea foods in scores of varieties for those in need.

No home in Canada was ever hit by a bomb. No man ever went to a concentration camp or worked at slave labor, no man disappeared, no village was burned to the ground, no city leveled in its foundations. So during the summer month you must substitute as much as ever you can, the family will co-operate and understand. It's such a little thing to do for our fellowmen. The world is getting smaller every day, our neighbors no longer on the next street, they live on the next continent.

BLOOD AND PLASMA

One of the most important parts of Canada's post-war reconstruction is the Canadian Red Cross Society's new transfusion blood transfusion service, was accepted by the Associated Hospitals of Alberta by the Society's plan every hospital in Alberta belonging to the association will receive free blood and plasma for those in need.

In accepting the plan on behalf of the Alberta Hospital, Mr. L. Adhesed, secretary treasurer of the association, said: "We feel that the Canadian Red Cross are offering a wonderful service to hospitals and to the people of Alberta."

To understand the extent of the Society's blood transfusion service it is necessary to look back to 1901—the year Dr. Landsteiner discovered the existence of human blood groups. This discovery, for which he was awarded the Nobel Prize in 1930, will have rank as one of science's greatest contributions to human knowledge.

Life saving possibilities of the service can be drawn from the 1944 accident mortality figure in Canada when over 6,800 civilians met violent deaths. Many of these lives would have been saved by immediate blood transfusion therapy such as the Red Cross will offer in the future.

The Associated Hospitals of Alberta represent all active treatment hospitals in the province, ranging in size from 10 to 600 beds. The Red Cross will supply both whole blood and plasma for distribution absolutely free to all the above hospitals, and to the hospital patients.

The service is expected to begin operations in July with a main depot in Edmonton and sub-depots in Calgary. Permanent blood donor clinics will be established in Edmonton and Calgary and three mobile units operate throughout the Province.

Annual Sports Day Proved Successful Affair

The Empire Day sports held last Saturday afternoon at the fair grounds proved to be a success in every way. The largest crowd seen in some years was hand to enjoy the sports.

In the baseball tournament the first game between Cluny and Meadowbrook was won by the former. The game was scheduled to go seven innings but at the end of the seventh the score stood 5-5 and it was not until the tenth inning was the winner decided with Meadowbrook bringing in one runner. The final score 6-5.

The second game between Chancellor and Queenstown was won by Chancellor the score being 2-1.

In the final and deciding game Cluny lost to Chancellor by a score of 5-4.

There were many sporting events for the school children all which were keenly contested and much enjoyed by the onlookers.

In the evening a large crowd attended the dance.

After spending most of last week erecting forms for cement at the new Recreation Centre, work of pouring the cement began Monday morning. There were in the neighborhood of 50 volunteer workmen on the job and by night had all the cement poured in the area. The ice for the curlers will occupy. Bright and early Tuesday morning the boys were back on the job to finish pouring cement for the basement.

Among the many attending the funeral of the late W. W. Brown was noticed George H. Ross, K. C. of Calgary, former member of parliament, Ottawa; O. Moorehouse; Frank Addelman and L. McKinnon, all of Calgary. Also noted were many other old timers of the Strathmore, Bassano and Gene districts.

Think for a moment what would happen, if even for one week, everybody in town were to shop elsewhere either in a neighboring town or by mail would it not cause consternation, and would not all business centers be very much affected? They certainly would and with good reason. Some do this regularly and what is the result? Every dollar sent to distant business houses is gone for good so far as that particular district is concerned, and merely serves to help up and maintain some distant town or city. The local business men are robbed of that circulation of money which during its ramblings might help dozens along the way. How about printing? All business houses need more or less printed matter of all kinds which is within the possibilities of the local printer. Yet how prone many of us are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

Level crossing dangers and the need of exercising every care have been emphasized by a number of these fatalities in Alberta recently, according to officials of the Motor Association. Two persons were killed in a recent crash at a level crossing when their car was struck by a train while in another accident, one was injured fatally. Thus, despite the educational campaign carried on by different organizations, the level crossing menace still is as great as years ago. This condition also prevails in other provinces. The volume of vehicular traffic is on the increase making it all the more necessary to adhere to safe driving principles. The appeal to all motorists is "Stop, Look and Listen" at railway crossings is worthy of the closest possible observance if the death menace at these crossings is to be reduced. While elimination of grade crossings has been undertaken to a limited extent, there are thousands still in existence. Such crossings should be approached with safe driving rule kept constantly in mind, because death or serious injury lurks there.

Indian Rodeo Will Take Place Wed., June 11

The Blackfoot Indians have set Wednesday, June 11th, as the date for their annual rodeo to be held this year. As usual it will take place at the same site on the Bow River at North Camp, south west of Calgary.

At present the Indians are busy making preparations for the big show, they have successfully put over for the past several years, by getting their stock lined up and the corral in shape to hold them.

Howard McMaster is the secretary and he states that all entries for the stampede events must be in by 12:30 noon the day of the show.

In the arena five different events are scheduled to take place namely: Bucking horse riding with saddle calf roping, Wild steer decorating, Barbecue riding and Steer riding.

The entry fees in saddle riding, calf roping and steer decorating will be added to the prize money.

For those interested in races there will be five races on the race track surrounding the arena. The racing events are as follows:

- Half mile race.
- One mile race.
- Free cart race.
- Relay race.
- Indian race.

It is hoped to have all kinds of attractions to entertain the crowd such as a midway.

The show will begin at 1:30 sharp so that all events may be finished by six o'clock. The Indians have the reputation of keeping things on the move, no judging from rodeos of the past there should not be a dull moment all afternoon.

In the coming a dance will be put on at the Gleichen Community Hall.

The word democracy has suffered much discredit from two causes. First, it has been misused and twisted by extremists of right and left, who have made it by turns a butt for their glib and a cloak for their totalitarian aims. Second, it has sometimes stood for nothing more than inefficiency, because, who inherited the benefits of democracy, have failed to live in a way that makes democracy possible.

For democracy in its true sense can only be made up of those who deliberately prefer the good of the whole to their own selfishness. Its essence is not the wide sharing of privilege but the wide sharing of responsibility. The strength of democracy is thus the strength of human character. But the evidence of history teacheth, even at its best, human character is not enough. So today we must look beyond the purely human conception of democracy to further vision of an inspired democracy in which every individual not only contributes his own help, inspired democracy will not come about by the action of a few leaders appealing to the self interest of the masses, playing down to human nature instead of pointing men to their true destiny. It can and will come to the leaders and to millions of ordinary people and families through the new quality of life and new teamwork.

BIG TOURIST SEASON AHEAD!

THE THOMPSONS are busy as bees, getting their place in shape for the tourist season. This year, with three more cabins, electricity and a modernized kitchen, they have to do even better than before.

They were able to make these additions because last fall Mr. Thompson drove to town to see his bank manager. He knew about the nice little business the Thompsons had built up; a bank loan was quickly arranged.

Now the Thompsons can handle more tourists and increase their income. At the same time Canada will benefit from the extra tourist dollars they take in.

THIS IS ONE INSTANCE of how Canada's 3,200 beach homes play their part in the daily life and work of Canadians.

GEMS OF THOUGHT

GALESBURG, Ill.—A lawyer, E. L. Stewart, said a violin he thought was worth \$3.50 brought an offer of \$2,500 and he may get \$4,500 for it.

Stewart, representing the estate of the late Louise Ware, 80, of Victoria, Ill., a one-time music teacher, sent an old violin found among her effects to a Chicago music instrument com-

not attempt to alleviate pain by applying an ointment. Only sterilized dressings, such as a doctor will apply, should be used, and first-aiders are urged not to remove clothing or expose the burned surface meanwhile.

EATS FOR THE FIRST TIME IN 16 YEARS — According to Jack Parks, Orem, Utah, eating is "about the most wonderful thing in this world." Parks, who hasn't been able to eat or drink for 16 years, has now been served milk by Nurse Claudia Sergeant at the Illinois Research hospital in Chicago. When Jack was 20 months old he swallowed some soy. He has received all nourishment until now via a tube through the abdominal wall into his stomach. Although Parks' diet is now confined to liquids, doctors say in a few months he will be able to eat solids.

TORONTO. — The Canadian Government is spending on research and development seven times as much as she did in 1939," Dr. C. J. Mackenzie, president of the National Research Council, Ottawa, told the Engineering Institute of Canada recently.

"The engineering facilities available for graduate work, the doctorate level are still limited, there are today a considerable number of scientifically-trained engineers doing research work and the number is growing rapidly," said Dr. Mackenzie in an address at the institute's annual banquet, "Advances in Engineering," last night.

He stressed the importance of research about the future of Canadian industry and Canadian engineering.

LIPTON'S TEA BAGS, TOO!

OUR COMPLETE SHORT STORY—

INSPIRATION

By MAUDE NORMAN

MARY STARR finished putting the dishes away, took off her apron and went out to the front porch. She glanced anxiously toward where the bright top of her husband's cigarette shined in the darkness.

"It gets darker earlier now, doesn't it," she remarked.

She tried again. "Anything interesting happen today?"

James threw his cigarette over the railing. "Oh, sure, I had a very interesting day," he chuckled. "As usual, I told the seven-thirty-five to town. I sold, or tried to sell suits. I took the six-thirty home as I have for the last six years. I walked down the same street, past houses so much alike I have to count them to be sure I turn in the right one. I ate hash and bread-pudding. Tomorrow night it will be stew or beans. Oh, yes, I had a very interesting day."

Mary listened in silence. She knew what he said was true. Somewhere along the way they had come to a place that makes labor for loved ones a joy. But where?

"Perhaps if you started writing again you might sell something," she ventured.

"Write," he snorted. "I'm no poet at night. I don't have an idea in my mind. I do the same thing day in and day out, world without end, amen, and you think I can write. Write about what?"

He went into the house, slamming the door.

A few tears stole down Mary's cheeks. She had failed. All the high hopes she had entertained when they were married of being an inspiration to a promising young author were gone. Two babies depended a lot on care and attention. James had to do work he despised to provide for them. "Perhaps he does still love me," she thought. "But it is used to me. He needs something exciting to happen something to stir him up. He needs something to happen."

She went into the house, slamming the door.

romance and I'm about as romantic as an old shoe. I can't give him romance—or can I?"

James came to the door, "Come on in," he said gruffly. "I'm sorry for what I said. It's hard on you, too, having a failure for a husband."

The next morning, Mary dressed through her work, washed and dried the baby, settled the three-year-old Shirley in the sand-box to play, then got out her typewriter.

Two days later James received a letter, a delicately selected misanthrope that Mary handed to him without a word.

"Dear Mr. Starr," the letter began. "About seven years ago I was confronted with a serious problem. I should have written, 'Stella's Solution,' helped me to solve successfully. I should have written and thanked you, then only that I knew how men in your position are deluged with letters."

I suppose you wonder why I am writing. Well, but in looking over some old magazines that came in for the veterans hospital I found a piece of yours entitled, 'Spring.' It made such an impression on me, that I said, 'Write.' And in writing, I said to tell you, that with your insight into human nature and your great understanding you must have helped hundreds as you have helped me. Thank you for myself."

Sincerely,

Justine Owen.

James did not know the name. Mary and she asked no questions. No more letters came to the house, although he wrote her several times. He began writing every evening, re-typing and sometimes rewriting the stories he had written and laid aside. Shortly after sending out his first for a check came a letter from the publisher, not much, but enough to encourage him.

Mary rejoiced at the change in him, especially after he sold two more stories, until one day, going through the pockets of a suit she was sending to the cleaners, she found a note. "Dear Mr. Starr," it began. "I have said it and say it again. Darling! I love you. Does that seem strange? But why should it? Your letters, carefully worded though they are, tell me you love me too. Name a place where I can meet you. Your postoffice address makes you seem so far away."

You are no longer responsible. In all this world there are only two things that matter, You, and the fact that I love you and will love you forever. You are my inspiration.

Hopefully,

James found Mary unusually silent that evening. Although he tried to interest her in the day's happenings, she busied herself feeding the children and hasty answered him. After the dishes were washed and the children in bed, he layd her at the foot of the stairs.

"I sold another story," he said. "Looks like I can write after all."

"That's nice," she answered briskly, trying to pass him.

"Arren't you glad?" "Of course I am." "Then what's the matter?"

Mary handed him the note she had found in his pocket. "I want to know," she said. "I found this when I emptied the pockets of your grey suit when I sent it to the cleaners."

James took the note. "It was hoping you would find it pretty soon," he grinned.

Mary burst into tears. "You heartless thing," she sobbed. "I know I'm no beauty and I've worn myself to a frazzle, taking care of your children and your home, but to have you tell another woman you love her, and stand there and grin about it! Well, I hate you, James Starr. You're a beast, that's what you are so there!"

"Well, I like that. I write you a lovely letter, telling you how much I love you and you call me a beast."

"Why?"

"I hope you don't think I'm as dense as I appear to be. Oh, I'm as full for it. Long enough to sell a story and get a little self-confidence. I'm not so curious to see what the lady who wrote such lovely letters. A trip or two to the post office soon showed she was someone I knew very well indeed. I kept up the writing gap, though, because I knew you enjoyed it."

And you don't think I'm silly, do you? I only wanted to give you a

WHERE 30-M.P.H. CHASE ENDED—Falling to make a sharp turn in a narrow road in Alderwood, near Port Credit, Ont., a car being pursued by police at an 80-mile-an-hour clip crashed into a deep gully and bursted into the soft earth. From the wreckage, police said, they drew a Toronto man and his girl companion, also of Toronto. Both were injured. Five shots were fired by police at the car, said to have been stolen in Port Hope. A police officer said he attempted to stop the car near the lakefront but the driver pulled away and a five-mile chase began.

little romantic interest. I thought it would help you."

"It certainly did help me,ully. After you dragged me out of a black pit of self-hatred and despair! I meant every word I wrote." He kissed her gently. "You really are my inspiration."

Canadian Army Have New Magazine

OTTAWA.—The Canadian army is now publishing in Ottawa, an official monthly magazine which will be circulated to the active and reserve forces, army headquarters announced.

The Canadian Army Journal, which replaces the wartime Canadian Army Training Memorandum, made its first appearance in April. The new publication is broader in scope than its predecessor and is designed to provide information on current military trends and to stimulate interest in military affairs.

By ANNE ADAMS

A New Slant On You

Be the first to get this new slant on your good little figure! Pattern 4689 makes striking use of stripes on a side-slit and is equally remarkable in a plain fabric.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4689 comes in: R. Miss sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

Send twenty-five cents (25c) in coins (postal note not accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 170 McDermott Ave. E., Winnipeg, Man.

ACTRESS BETTE DAVIS WINS HOUSE POOL BABY

LAGUNA BEACH, Calif.—Barbara, Bette Davis' new daughter, has moved to her new quarters in a modern modern modern nursery where cries will be heard all over the house. An ingenious wiring system will carry her crying from the nursery to all parts of the actress' \$80,000 beach house.

APARTMENT BLOCKS

Some prohibitive Pueblo Indians of New Mexico constructed houses with several hundred rooms on the ground floor and terraced them to three or four stories.

Prairie Command Announces Army Plans For Summer Camps

WINNIPEG, Man.—Soldiers of Reserve Force units in Prairie Command will attend Army summer camps at Shilo, Man., and Dunderburg, Sask., during July, it was announced here by military authorities.

Subject to parliamentary approval of current estimates, approximately 1,000 officers and men are expected to undergo eight days of training at two camps. Training at Shilo Camp will be from July 6-13 and at Dunderburg from July 13-20.

"The aim this year," said Brigadier M. H. S. Penhale, C.B.E., General Officer Commanding, Prairie Command, "is for quality, not quantity. At the conclusion of summer training, units will have a slate of well trained officers and non-commissioned officers who will be prepared to handle efficiently any influx of recruits and provide them with expert instruction and an interesting training programme."

Camp Commander at Shilo Camp will be Brigadier H. E. Murray, D.S.O., Commander Royal Artillery 6th Canadian Infantry Division, of Regina, assisted by Lieut. Col. J. W. Ritchie, G.S.O., 1, Prairie Command, Winnipeg, and Lieut. Col. C. S. Leitch, Chief Instructor of Winnipeg Camp Commander at Dunderburg, Sask., will be Col. R. E. A. Morton, D.S.O., Commander of Saskatchewan Area, assisted by Lieut. Col. R. C. S. D.S.O. and Major G. C. S. Saskatchewan Area.

To Continue Exchange Of Harvest Units

OTTAWA.—Labor Minister Mitchell announced arrangements which have been in effect between Canada and the United States for the exchange of harvesting units between the Prairie provinces and the grain-growing states will be continued during the 1947 harvesting season.

Predicts Longer Skirts For Women

SHAWNEE-ON-DELAWARE, Pa.—Longer skirts this fall will make the 50 per cent of the wardrobe of American women, says Mack Gordon, president of a women's specialty store in Cleveland, O.

Gordon in a speech before 100 textile manufacturers, executives, administrators and technologists attending the second annual National Textile Seminar urged a textile research project into the buying habits of the American public. He said it would eliminate hit or miss method in production and distribution and recurrent cycles of booms and depression.

SMALL, BUT EFFICIENT

A tiny parasite, measuring less than an inch in length, is killing off the man-eating sharks around the shores of New South Wales, Australia.

Irrigation Plans For The West

MEDICINE HAT—Formulation of plans which it is hoped will lead to increased irrigation throughout western Canada, with a resultant rise in productivity of the land, was discussed here at a meeting which saw the birth of a new reclamation association for western Canada.

At present taking in only Alberta and Saskatchewan the organization will hold another meeting in Lethbridge July 11-12 at which Manitoba and British Columbia will be invited to participate.

Concerned with seeing that farmers can produce crops under as favorable conditions as possible, the association's main objective will be to strive for extensive irrigation throughout regions in the west where proper water channeling can greatly increase output.

The need for an organization which can effectively work towards increased soil fertility was indicated recently through statistics by Dr. A. G. McAllister of the University of Alberta. He said that during the period stretching from 1921 to 1943 drought struck southeastern Alberta 50 per cent of the time.

Through proper irrigation it has been estimated that drought years can be eliminated—and farmers, through selective crop growing, increase the income they would be making even in normal years.

Instead of grossing approximately \$20 an acre from a dry land wheat crop farmers could gross between \$20 and \$40 an acre on well watered land raising vegetable growing crops, such as beets.

L. B. Thomson, superintendent of the Swift Current, Sask., Experimental Farm, said that the association will "do the trick" in providing farmers with necessary security during periods which normally would be "dry" years.

He described the main problem as water conservation, not soil conditions. "It takes 100 tons of water to grow one bushel of grain."

BREAK FOR DOGS

A dog's life isn't as bad as it used to be. Vancouver city council has authorized amendments to the dog kennel bylaw which stipulate that all kennels must be rat-proof, sound-proof and light-tight, and must be to the satisfaction of the city's medical health officer.

LEARN HAIRDRESSING

Learn styling, hair cutting, shampooing, pedicure, manicure, nail care, etc. Train under direct supervision of outstanding beauty experts. RECIPE

Add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar to 1 cup warm water. Stir and let stand 10 minutes. Scald 1 c. milk, add to yeast mixture. Add 3 c. sifted flour and beat until perfectly smooth. Add 4 lbs. melted shortening and 3 c. sifted flour. Knead well. Place in greased bowl. Cover and let rise in warm place until doubled in bulk, about 1 1/2 hours. Punch dough down in bowl and let rise in warm place until nearly doubled in bulk, about 10 min. When light, roll out thick. Brush with melted butter or shortening, cut into strips 1 1/2" wide. Place 7 strips, together cut into piece 1 1/2" wide. Place side up in greased muffin tin. Cover lid and let rise in warm place until nearly doubled in bulk, about 1 hour. Bake 400° F. oven for 20 minutes.

THE 1947
Special Allowance of
SUGAR
FOR CANNING
will be
10 LBS. PER PERSON

As in previous years this special allowance of sugar for canning will be in addition to the regular sugar ration. It will be made available in two amounts of 5 pounds each.

THESE ARE THE COUPONS TO PROVIDE THE EXTRA SUGAR

VALID MAY 15th **VALID JULY 17th**
Coupons Y1, Y2, Y3 Coupons Y4, Y7, Y8, Y9, Y10
Y4, Y5

Coupons may be used as desired after their respective validity dates, and will remain valid until at least December 31st, 1947.

Each coupon is good for the purchase of 1 pound of sugar.

The world sugar situation has been improving and has made possible the recent increases in the Canadian allowance. World supplies, however, are still inadequate to meet demand, requiring continued rationing.

Town & District

R. A. Wood, the local auctioneer is holding a community auction sale next Saturday afternoon at 2 o'clock.

Wednesday afternoon Mrs. N. A. Riddell was hostess to a group of friends in courtesy to Mrs. Foster Ferguson of Edmonton.

W. F. Durston of Calgary spent several days in town the guest of Mr. and Mrs. Angus McLeay.

Mrs. W. McConnell spent the weekend in town the guest of Mrs. Charles Thompson. Mrs. McConnell has been living in Calgary for the past year but has moved to Banff recently.

Ennis Woods accompanied by his wife and children spent the holiday in town visiting his parents Mr. and Mrs. E. L. Woods.

Mr. and Mrs. Tustian of Manyberries, Alberta were guests at the home of Mr. and Mrs. Bob Brown during the weekend.

People who scorn minor ailments, and boast of never bothering to take time off to get rid of trifling indispositions are said by health authorities to be most in danger of crumpling when serious disease strikes them. "The tougher they are, the harder they fall" says a doctor. It is pointed out that resistance is lowered by disregard of minor ailments. The person who has "worked off" numerous light infections, has failed to build up strength against real health threats.

Butter rationing appears to be on the way out. The recent increase authorized by Ottawa when it discarded the 8 1/2 per cent butter subsidy will tend to ration it without the use of coupons.

CARD OF THANKS

The family of the late W. W. Brown wish to thank their many friends for expressions of sympathy, and floral offerings received in their recent bereavement through the loss of their loving father. Also Dr. Parquharson, Rev. Stehr, George Evans, the McLeays, and the Order of the Eastern Star.

TENDERS FOR COAL
(Western Provinces)

SEALED Tenders addressed to the undersigned and endorsed "Tender for Coal for Western Provinces" will be received until 3:00 P.M. (E.D.S.T.), Thursday, June 12, 1947 for the supply of coal for the Dominion Buildings and Experimental Farms and Stations throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Form of tender with specifications and conditions attached can be obtained from the Purchasing Agent, Department of Public Works, Ottawa; the District Resident Architect, Winnipeg, Man.; the District Resident Architect, Saskatoon, Sask.; the District Resident Architect, Calgary, Alta.; and the District Resident Architect, Victoria, B. C.

Tenders should be made on the forms supplied by the Department and in accordance with the departmental specifications and conditions attached thereto. Coal dealers license numbers must be given when tendering.

The Department reserves the right to demand from any successful tenderer, before awarding the order a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works, equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada, or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque if desired to make up an odd amount.

By order,
J. M. SOMERVILLE,
Secretary.

Department of Public Works,
Ottawa, May 17, 1947.

Maintaining Soil Fertility

Our prairie soils have lost much of their natural soil fertility through continuous cropping and soil erosion. The grain and straw from a twenty bushel crop of wheat contain mineral elements valued at about \$10.00. The growing crop removes these elements from the soil. Unfortunately, soil erosion can cause an even greater annual fertility loss than this.

What can be done about it? Well, losses of soil fertility in Western Canada can only be reduced if every farmer will learn certain definite practices which influence the fertility of his soil such as proper tillage, crop rotation, and the use of manures and commercial fertilizers. Tillage. The use of summerfallow practices which will kill weeds and store moisture without destroying the structure of the soil particles is important. However, the excessive tillage associated with following one-half of the land each year (a one-crop system) has a detrimental effect on soil structure, and eventually leads to severe soil erosion—dust storms and gullies.

Crop Rotation. The periodic use of grass-legume mixtures on different parts of the farm is an age-old practice to maintain and increase soil fertility. Grass roots bind the soil particles together, and legume store nitrogen (an essential plant food) for the use of other crops.

Manure. Well-rotted manure applied at the rate of 10 tons per acre has a fertilizer value of over \$20.00 per acre. Few prairie farmers are making the best use of their farmyard manure.

Commercial Fertilizers. Phosphate fertilizers (11-48 Ammonium Phosphate) give the best results in the black soil regions, particularly when applied with crops on summerfallow. For soil low in organic matter (eroded soils), however, and where all straw and stubble are worked into the land, applications of Ammonium Phosphate are required. If our prairie soils are to continue to produce food for human and stock, soil management will be needed, more and more, in the future. For information on soil fertility problems see your local Agricultural Representative, or write to the Soils Department of the University.

Substantial Rewards Paid In Search For Empties

Substantial rewards have been paid to Albertans who were successful in apprehending E. B. Bottles, alias "Empties." It was announced today by authorities at Deliveries Limited agents for the Brewing Industry from where Bottles escaped work.

During the past month, rural and urban residents have co-operated in an intensified search for Bottles, investigating the cult's favorite hide-outs such as basement corners and wall closets. Deliveries Limited paid rewards of 25 cents per dozen to persons apprehending the fugitive and returning Bottles to their custody.

The escape of the fugitive from essential work in the brewing industry was regarded as serious, with Bottles now back on the job, the industry expects to be able to maintain its normal output. However, Deliveries Limited, while reporting success in the current campaign asks citizens to continue to keep a sharp lookout, and warned that Bottles may attempt another escape and again return to favored hiding places.
